The second and third boats reached the shore. Eighteen bodies have been recovered. Seven remain unclaimed, who have been decently buried.

MIDNIGHT DISPATCHES.

The Yellow Fever at Shreveport—Its Ravages and the Efforts Made to Furnish Relief and to Remove the Unprotected.

NEW YORK, Sept. 17.—Dr. Eliesha Harris, Register of the New York Board of Health and Secretary of the American Health Association, has sent a letter enclosing a hundred dollars for the Shreveport sufferers, and urgently requests the Howard Associations of Vicksburg, Natchez and New Orleans to send and supervise a requisite number of seasoned nurses, hospital supplies and aid to provide for all the sick; he also hopes that the municipal authorities of Caddo Parish, in which Shreveport is situated, will see that speedy measures be adopted for a quiet removal and a shelter encampment, if need be, of the unprotected who have not yet fallen by the pestilence. He says if they are removed beyond the first line of plains and hills that skirt red river in that region, entire security can be obtained within a few miles from the river. Flight to a great distance will not give the kind of security that can be obtained at a small cost and less than three hours travel. If $5,000 and effective organization of nurses, together with a well devised plan for moving the unprotected were to be brought into effective service, the panic and pestilence would soon cease.

Cotton brokers of this city will telegraph their contributions by money order through the Howard Association at New Orleans.

The General Superintendent of the Western Union Telegraph Company at Louisville telegraphs President Orton to-day as follows:

"The Howard Association report 24 deaths at Shreveport for 24 hours, ending at 6 o'clock, p. m., yesterday, and 220 since September 1st. There appears to be no abatement of the disease, except from want of subjects. We have two operators there now, another leaves here to-night, one at Pensacola, who has recently had the fever, who will go if necessary."

The Comparative Cotton Crop Statement by Commissioner Dobbs, the Agricultural Statistician—Increase of Area—The Condition higher than last September—A good General Showing.

WASHINGTON, Sept. 17.—The statistician of the Department of Agriculture, Mr. Dobbs, has returned from Europe, and after careful revision of the monthly returns, gives the following as the present status of the cotton crops: The indicated increase of area is a little over ten per cent., the condition of the crop is higher than in Sept. of last year, in Arkansas the same in Tennessee and lower in each of the other cotton States. The worms have been more abundant, yet their ravages have been disastrous or sweeping in few cases. The season has been remarkable for its rainfall, tending to further depreciation of the crop, otherwise the conditions have been quite favorable. Fertilizers have stimulated the growth and labor has been steadier and more reliable. The average are as follows: Virginia 98; North Carolina 95; South Carolina 86; Georgia 90; Florida 85; Alabama 85; Mississippi 82; Louisiana 80; Texas 92; Arkansas 93; Tennessee 92; Missouri 96.

In September, 1872, Virginia 97; North Carolina 1,01; South Carolina 95; Georgia 96; Florida 92; Alabama 88; Mississippi 90; Louisiana 86; Texas 94; Arkansas 78; Tennessee 92. The cotton crop in North Carolina generally makes a fine show of vigorous and fruitful plants, the exceptions resulting more from the falling of forms and bolls, the consequence of too abundant rainfall, than from the presence of the worm

In South Carolina similar damage from excessive moisture occurs and the caterpilar's threatening a partial or total destruction of the crop in several counties. The crop appears better in Georgia than in any other cotton State East of the Mississippi, though there is some important injury from rust and heavy rains, and the caterpillar is present in force in many counties, but generally come too late to cause more than a small per centage of loss. The injury from worms and the season vicissitudes in Florida, are somewhat greater, amounting to fifteen per cent. of depreciation on condition of the crop. The caterpillars appeared in portions of Alabama towards the last of July, but its ravages have not been serious until recently in certain counties, having been held in check to some extent by the use of poisons, although efforts to combat the pest have not been general. In some counties in Mississippi the plant is shedding its leaves and forms from rains, and in others from drought. Rust has appeared in some localities, and both caterpillors and boll worms are doing local damage in shortening the life of the plant, without much injury to the bottom and middle crops. The crop of Louisiana lacks uniformity, Carroll returning 100 and Caddo 30, Tensas 85 and Rapides 38. In some parishes the worms have been present without doing much damage, while losses have been heavy in others. There is a similar range of condition in Texas, from very good to much higher. Worms have appeared in many parts of Arkansas, with little prospect of damage except to the top crop. The average condition of the crop is much higher than in September, 1872. Prospects are also good in Tennessee. Several counties in Missouri make returns of cotton which have never before been made mention of that crop.

Important Revenue Decisions.

WASHINGTON, D. C., Sept. 17.—The Commissioner of Internal Revenue calls attention to the Act of Congress of December 18th, 1872, requiring every person liable to special tax to exhibit conspicuously in their places of business a stamp denoting the payment of such tax, and directs that persons engaged in selling tobaco or cigars or on railroad trains be required to have their tax stamp properly framed ed so that it may be hung up in a conspicuous place in the car where such sales are authorized to be made at retail. The Commissioner decided that a planter engaged in making a crop on shares is not liable to pay a special tax as dealer on manufactured tobacco furnished in supplies to hands employed, such tobacco to be paid for out of the crop produced.

The Commissioner says the law does not impose this tax upon every person who shall sell or offer for sale, as in the case of liquor dealers, but upon every person whose business it is to sell or offer for sale manufactured tobacco, and he does not think the furnishing of hands with tobacco, to be paid for as stated, constitutes such business as the law contemplates.

Perils of the Rail—Collision and Loss of Life on the Charlotte, Columbia & Augusta Railroad.

COLUMBIA, S. C., Sept. 18.—The road paymaster's and the down passenger train on the Charlotte, Columbia & Augusta Railroad collided five miles above Columbia this morning at twenty minutes past nine, smashing both locomotives and killing Paymaster W. Elliott Archard and a colored man named James Archey. Engineer Williamston had his leg broken and was injured internally. A colored boy had his foot crushed, and the Express man, Graham, was thrown twenty feet in the air and cut in the head slightly. Two express cars were smashed. The passengers were uninjured. The road hands are at work, and will have trains running regularly to-morrow.

The Guilty Fleeth.

LOUISVILLE, Sept. 17.—Morton, the forger, got on the Indianapolis train last night at 10:30 o'clock; the Cashier and Book Keeper of the Farmers and Drovers Bank were in the same car looking for him when the train was 300 yards north of Jeffersonville. Morton was recognized by the Cashier, and running through the car he jumped from the platform while the train was in motion and escaped. The police and detective officers from this city and Jeffersonville are searching for him.

LYNCH LAW IN LOUISIANA.—Some terrible examples of lynch law have recently occurred in Vermillion Parish, Louisiana. For years the parish has been infested with cattle thieves. As no redress could be had by law, the people took the matter in their own hands. They organized a Committee of Vigilance, and warned the thieves and their confederates to take their departure within a given time. The latter retorted by defying the Vigilantes, and threatening to burn the town of Abbeville. This brought matters to a crisis. The thieves finding themselves hard pressed, scattered. Three were caught and hanged about a week ago, and last Wednesday several others of the gang were seized on board of a steamer, taken ashore, and hanged.

The Philadelphia *North American* is predicting the commercial decadence of New York. Its trade is to be divided between Pittsburg, Buffalo, Cleveland, Cincinnati, Louisville, St. Lou is, Chicago, and other Western cities, while Baltimore, Philadelphia, Portland, Boston, Norfolk, Richmond, Savannah, and other seaboard cities are to resume the commerce that properly belongs to them. All this because these cities are beginning to import their own goods direct from Europe, and to buy their surplus immediately from Eastern manufacturers.

From Liege comes the report of a duel such as Chas. Lever might have narrated from his active imagination. Some German officers, dining at a restaurant, grew impatient at a dilatory service, and one of them exclaimed, "Are there no French officers to wait on us?" Instantly a Captain in the Belgian Guards, of Irish descent, took up the insult, and said though there might be no French officers present, there were Belgians, ready to guard the honor of their brethren in arms. A meeting followed through the night.

Governor Moses, of South Carolina, narrowly escaped a kicking the other day. Benj. Hernandez, of Charleston, went to see the Governor about $500 which his Excellency owed him. The doorkeeper refused to let him in, and he knocked the doorkeeper down. Moses went to the rescue and Benjamin threatened to whip him too, if he did't pay up. A policeman arrested Benjamin.

A Danbury carpenter who has been reading about the great national park to be established in the Yellowstone country, has sent an application to Washington for a job of making the little boards which notify people to keep off the grass.

A Missouri woman turned her husband up side down in the milk churn the other day because he swore at her mother. He respects his mother-in-law now.

Full official returns of the recent election in Kentucky show a Democratic majority of 92,364.

Wanted to rent—a piano. See notice in another column.

Senator Merrimon and family have returned from the mountains.

New buildings continue to spring up in every section of the city.

Wm. Simpson, Esq., is the delegate from this city to the Pharmaceutical Convention now in session in Richmond.

The hymeneal torch will be lighted again to-day, no ill wind preventing—and thus the good work goes bravely on.

There will a called meeting of the Executive Committee of the State Agricultural Society, at the office of the Secretary, at 7½ o'clock this evening.

John A. Goodon, an artist of no ordinary skill and accomplishments, has opened the tonsorial establishment of the National Hotel. Give him a call.

THANKS.—In looking over the proceedings of the International Typographical Union, held at Montreal, Canada, in June last, we find the following resolution:

"*Resolved*, That the thanks of the members of this body are hereby tendered to Capt. A. B. Andrews, Superintendent of the Raleigh and Gaston Railroad and E. G. Ghio, Superintendent of the Seaboard and Roanoke Railroad."

POLICE ITEMS.—Several arrests for drunkenness and disorderly conduct were made Tuesday night and discharged by his Honor the Mayor yesterday morning on the payment of the usual fines.

A colored girl reported to Chief of Police King, that she was knocked down by a soldier on East Martin street and otherwise insulted. She did not know the man but could identify him by recognition. He will probably be arrested to-day.

ACCIDENT.—Green Boone, a brakesman on the North Carolina railroad, while coupling cars at the depot yesterday evening caught his foot in a switch frog and was run over by the cars, three wheels passing over his leg. He managed to throw his body from the track where he was first thrown and thus saved his life. Dr. W. S. Royster was called in to dress the wounded limb, who reports that no bones were broken, and his injuries will only prove temporary.

ARRIVALS AT THE STATE PEN.—Sheriff Wynne, of Franklin, brought to the penitentiary yesterday John Parker, white, convicted at the late term of Franklin Superior Court of larceny, and sentenced to ten years, and Orel Jeffreys *alias* Solomon the same, for ——.

Sheriff Kassell, of Tyrrell, brought to the Penitentiary also a colored convict, whose name and offense we did not learn.

TWELVE MILES AN HOUR.—Raleigh draymen are the fastest drivers of the town, and but few make less than twelve miles an hour with an empty dray. There is an ordinance of the city government forbidding draymen to drive out of a walk, but what is it worth? What is any ordinance worth with Friday Jones, old "Boots" and other superannuated, indigent members of the party as policemen. But the party must be fed.

MESSRS. TAYLOR, ELLIOTT & WATTERS.—This is the name of a new firm, in Norfolk, Va., which has succeeded Messrs. Taylor, Martin & Co., and they propose continuing the hardware business in all its branches. They are at present occupying a store on Commercial Row, in consequence of the late fire which destroyed the building occupied by Taylor, Martin & Co., but will soon be in a new building erected upon the old stand. We invite attention to their card in another column.

ITEMS FROM NASH COUNTY.—A correspondent writing from Castalia, Nash county, under date of the 16th, furnishes the following items:

Four mineral springs have recently been discovered on the farm of Mr. James B. H. Boddie, in Nash county. The principal mineral of one is iron, of another magnesia, and of the other two the minerals are unknown. Mr. Boddie anticipates having the water analysed soon. The springs are situated in a healthy vicinity, about three miles from the flourishing little town of Castalia, on the road leading from this place to Rocky Mount. All four of the springs are within ten feet of each other.

We have a flourishing Grange at this place.

Crops are looking finely, though farmers complain greatly of the damage done them by the recent rains.

HURRAH FOR NORTH CAROLINA.—We heard a few days ago that a young printer by the name of Dennis, formerly of Wadesboro, was the successful competitor in a type-setting match at Hartford, Conn., a short time since, and we are permitted to make the following extract from a private letter received in this city on yesterday, from Louisville, Ky., concerning our young friend John G. Carter, who left this city about 12 months ago:

"He had a race with one of the young men in the office a few days ago (who was considered the fastest man in the office) and was, as the printers say, *the brag man*. They commenced at 7 o'clock in the evening and set type 6½ hours, and John beat him "one thousand ems." John averaged a little over 1,500 ems an hour, solid minion."

We are pleased to hear that young men from our State sustain themselves in their reputation for business qualifications whenever they go abroad. We also learn that friend Carter holds a permanent "frame" on the *Commercial*, and is doing better than he did in Raleigh.

THE RECENT OUTRAGE UPON MISS POWELL.

The "News" Account of the Affair Sustained.

NEW DEVELOPMENTS.

THE FEMALE PROCURESS STILL AT WORK.

WHY THE INVESTIGATION IS DELAYED.

Fayetteville and Raleigh Citizens Offer Aid and Assistance to the Injured Ladv.

The recent outrage attempted by the City Police upon Miss Lucy Powell, a respectable young lady in this city, an account of which appeared in the NEWS a few days ago, has excited much interest on the part of our citizens who still clamor for an investigation. We have purposely remained silent in order that we may obtain further light upon the affair, as the enemies of Miss Powell, those upon whose shoulders this heavy responsibility should rest, have industriously circulated reports detrimental to the character of the young lady, and that the negro woman, who claimed her as a daughter could substantiate her rights before the Superior Court. In the face of these statements boldly asserted upon the streets of Raleigh, and to which many of our citizens were disposed to give credence, we intentionally kept the matter quiet till we procured further evidence as to the truth of the statements which we obtained, as stated, through an interview with Miss Powell in person, and Capt. Adams and wife. We believed her story then, and subsequent developments have proved that she told the truth. We have left no stone unturned to secure all the information necessary to refute the foul and wicked insinuations against the fair name of this poor defenceless girl, whose character cannot be successfully assailed. Thanks to good fortune, we have obtained positive and und unimpeachable evidence that will justify us in asserting, that the article that appeared in the NEWS, Sunday morning, September 7th, headed a "Diabolical Outrage," is correct in every particular and each material fact is well and firmly substantiated. We re-assert that the attempted kidnapping and abduction of Miss Powell by a policeman of the city of Raleigh, in which he forced her against her will into a house of ill-repute, is an outrage of the most damnable and horrible character, and we cannot understand why the authorities retain him in office.

Two weeks have elapsed since we charged that this negro policeman, after forcing Miss Powell in this notorious house, sought the advantage gained by his fiendish act and *there taunted her with insults*; yet, he still wears his *star* and exercises the functions of his office, and is virtually sustained in his lawless act by the Mayor of the city. [illegible] county, and has sued out a writ of *habeas corpus* before Judge Watts for the removal of her suit for the recovery of Miss Powell as her daughter to that county, where it is understood, by the aid of her "rich man's" money, she can procure evidence suitable to her purpose. This fact was made known to Miss Powell, who, in her defenceless, friendless and penniless situation, and smarting under the indignities and insults already heaped upon her by the police of Raleigh, became greatly alarmed. But there was no cause for alarm. The good citizens of Raleigh have been watching the movements against her, and are fully posted as to what is going on. Fayetteville, the home of Miss Powell, where she is known as a respectable, virtuous white girl, has sent a delegation of gentlemen to this city to inquire into the affair and offer her protection, etc. On yesterday the delegation of citizens from Fayetteville and this city waited upon Miss Powell and assured her she was not without friends and to have no fears of further oppression.

We have also received letters from different sections of the State inquiring as to what disposition had been made of the case, whether or not the citizens of Raleigh would permit it to pass without an investigation.

We will state to our friends that the citizens of Raleigh are and have been clamorous for an investigation, but in consequence of the slanderous reports circulated to the effect that the negro procuress was the mother of the young lady, the matter was purposely quieted till evidence to the contrary was obtained.

The case will probably come up before Judge Watts at Chambers in this city, on Monday, for the removal of the young lady to Johnston county, as before stated. Miss Powell is ready, with good counsel, to answer here, there or anywhere. This trial, we are authorized to say, will commence the investigation of this heinous outrage, and the outside public may rest assured that the citizens of Raleigh are determined to sift the matter thoroughly, and in our opinion startling developments will result therefrom. The citizens of Raleigh are not lukewarm in this matter, but abiding their own good time for the investigation.

In the meantime we can assure the outside world that notwithstanding this outrage by a negro policeman, Raleigh is ever ready and willing to fly to the protection of the innocent, and female virtue is as safe here as any spot under the sun.

BARNUM HEARD FROM.—P. T. Barnum writes to the Secretary of the State Agricultural Society that he would be pleased to send some of his animals down for exhibition, but that they are in Canada on exhibition and will not return until November. He offers, however, to send from Central Park a couple double-humped camels, provided safe transit could be obtained for them.

INVESTIGATION OF THE FIREMEN'S DIFFIULTY AT CAMP RUSSEL.—Chief Engineer Clawson and Assistant Chief Engineer Bosier held an investigation last night at Fireman's Hall of the disturbance on the occasion of the fire at Camp Russell on Saturday night. The Victor (colored) was first charged with a disobedience of orders in leaving the ground when ordered by the Chief Engineer to remain.

James Jones, the foreman, stated he was not present at the fire and his Company was under the command of his Engineer Samuel Stewart. He regretted the occurrence and while it was to be deprecated, yet he thought under the circumstances the Engineer was not so much to blame when he had been struck by Sheriff Lee and Mr. Cayton, citizens who had no commaud or authority over his company.

Samuel Stewart, the engineer, stated that he withdrew his company to prevent a riot, as he was attacked by Sheriff Lee and Mr. Cayton, because he refused to recognize an order from Sheriff Lee, and his men naturally got excited over what they properly considered an unwarranted and uncalled for attack. He did not willfully disobey the orders of the Chief, and was sorry that he so considered it; that if he had heard a peremptory order he would have remained on the ground.

The Chief Engineer was glad to know that the officer in command did dot intentionally or wilfully disobey his orders. One thing was certain, that discipline was the most essential element of a fire organization, and this he should preserve at all hazards, or disband the offending company.

H. C. Jones thought that an apology was due the Chief Engineer, as he so understood that this company had disobeyed orders, and he would move that an apology, coupled with a plea for forgiveness, be passed. The vote was put to the Company and unanimously adopted.

The Chief Engineer, in a few neat and well-timed remarks, accepted the apology.

SURVIVORS OF THE MEXICAN WAR.—It will be seen from the following that the Convention of the survivors of the Mexican war will be held in this city on the 15th of next month:

"*To the Survivors of the Mexican War.*—As Chairman of the recent meeting of the Survivors of the Mexican War, I have been requested to change the proposed place of meeting from Goldsboro to Raleigh and the time to the 15th of October, during the State Fair. Concurring in the propriety of this and the request of a number of those attending the late meeting, I respectfully recommend that the Convention of the Survivors of the Mexican War be held at Raleigh, October 15th, at 12 o'clock noon.

S. L. FREMONT,
Chairman of Wilmington Meeting.
Wilmington, Sept. 16, 1873.

BISHOP SIMPSON ON WOMAN SUFFRAGE.—At the Methodist Episcopal [illegible] schools was under discussion, the venerable Bishop Simpson said: "Pardon a digression. I want the day to come when women will vote. Without their vote I fear we will never be able to put down the houses of infamy and the liquor saloons of our country. Nothing is so ruinous to the country, it is true, and it is my opinion that we cannot get along without women voting. It is not good for man to be alone."

RETURNED.—Wiekel, the merchant tailor, has returned with his immense stock of fashionable goods for fall and winter wear. His advertisment was too late for this issue, but will appear to-morrow. Go and examine his stock and leave your orders.

Our largely increased trade in this line giving us facilities for the constant handling of fresh Teas, which are selected with particular reference to their drawing qualities. The Release of Shotwell.

Our editorial on Capt. R. A. SHOTWELL, before we knew of his release from Albany, in which we took occasion to pay a tribute to his manly bearing while under adverse circumstances, has called forth some pointless indignation from the Radical press, which does not affect us in the least.

It had been announced through the press for several weeks that the pardon of SHOTWELL had been signed by the President, but for some cause which was not understood, the prisoner was not released. Some of SHOTWELL's friends began to lose hope and thought the delay was unaccountable.

In this condition of affairs, the following item appeared in the Hillsboro *Recorder*, of September the 10th inst., in its column of State Items:

"The President has pardoned Geo. Holland and Adolphus Depriest, convicted Ku Klux, and confined for the last two years in the Albany Penitentiary. It is said that R. A. Shotwell refuses the offer of pardon made him because the terms coupled with the offer compromised his honor as a citizen. All honor to the man who is willing to suffer rather than bear disgrace."

Taking this statement as a text, we wrote the editorial which appeared in the RALEIGH NEWS of September the 11th. This was the first information we had received that SHOTWELL had refused the last pardon which had been offered him.

We make this reference because the last Cleaveland *Banner*, alluding to our article before it had heard of SHOTWELL's release, says:

"We have seen no such announcement in the telegraphic dispatches, or in any other journal, and we are forced to the conclusion that the NEWS' informant is not correct."

We had it from Capt. SHOTWELL's own lips that he was approached with *offers* of pardon by Government officials or persons in high favor with the Government, with assurances that if he would make certain confessions and disclosures he would be released. We yesterday published an extract from SHOTWELL's letter, written in the Albany Penitentiary in October, 1872, and he assured us that the sentiments expressed are the same he entertains now. While he is pleased to regain his freedom—while he rejoices that the President favorably considered the petition in his behalf—and while he gladly accepts his pardon, he feels that "his restoration to liberty is an act of justice rather than one of Executive clemency." These are the feelings with which, after more than two years imprisonment, he returns to his friends and to his native State.

But whether it is an act of justice or clemency, or both, the President has done right in pardoning SHOTWELL, and we give him credit for not releasing the Albany Ku Klux before, but it is better late than never, and we rejoice that "the subsidence of passions" referred to in SHOTWELL's letter has come, so that there is no longer any necessity for keeping the unfortunate convicts immured in a Northern prison. But after all, we suspect Capt. SHOTWELL is as much indebted to his friends at home for moving, unknown to him, in his behalf, as he is to the President for issuing his pardon.

We condense from some of our State exchanges their comments on SHOTWELL's return:

[From the Wilmington Journal.

CAPT. R. A. SHOTWELL.—The return of this much persecuted gentleman from the Penitentiary in New York, where for near two years he has been held as a political prisoner, to his home, with an unconditional pardon from President Grant, is a cause for congratulation to the whole State of North Carolina.

The manner and the instruments of the trial and conviction of Captain Shotwell, from Judge Bond, on the Bench, to the meanest perjured witness on the stand, are too fresh in the memories of our people to require any comment from us this morning. While Bond has embalmed himself in everlasting infamy, Shotwell comes back to his home and is welcomed by good men as one should be welcomed who has suffered undeserved persecution for political opinion's sake; and the verdict is a just one.

We are pleased, too, at the action of the President in this matter; not be cause, as we said before, we are grateful to him as for an act of magnanimity and clemency, for this the remembrance of Capt. Shotwell's long imprisonment utterly forbids; but because it is a further indication that, in the opinion of the President and those who control his action, the time has gone by when a resort to persecutions and prosecutions in the Federal Courts, is expedient as a measure of party policy. * * * * *

The release of the unfortunate victim of partizan necessity, we trust, gives promise that for the present, at least, the people of North Carolina will have a season of rest; indeed it has not come a moment too soon for the advancement of the best isterests of the State. * * * * *

The unconditional release of Capt. Shotwell will go far toward giving the people the assurance that a better day is at hand, and we therefore record with pleasure the action of President Grant.

To Captain Shotwell we tender our sincerest congratulations upon his honorable release and a cordial welcome back to North Carolina.

[From the Charlotte Democrat.]

Capt. R. A. Shotwell, of Rutherford county, has been unconditionally pardoned out of the Albany Penitentiary by President Grant. He was sentenced for ten years and has served about two. He acted nobly under trying circumstances.

[From the Charlotte Observer.

CAPT. RANDOLPH ABBOTT SHOTWELL.—We had the great pleasure of meeting yesterday this noble and sorely-tried young gentleman, who arrived in Charlotte yesterday morning, and registered at the Central Hotel from "Albany Penitentiary."

Capt. Shotwell has borne his confinement surprisingly well. He tells us that when first confined he was put at the shoemaker's trade, and assigned the duty of "trimmer." At this he worked for thirteen months, sandwiched between two negroes.

Manacled, imprisoned, suffering indignities from those who were not worthy to unloose his shoe latchets, this unswerving patriot and true gentleman bore everything rather than lay down principle for liberty. The name of Randolph Shotwell will live long after the time when the names of his oppressors shall have sunk to the deepest depths of infamy.

[From the Southern Home.

RANAOLPH A. SHOTWELL.—We were much gratified at meeting this victim of persecution at the Central Hotel, on last Saturday.

It is seldom in these degenerate times that we find a man who has borne himself so nobly in the hour of trial. Every effort was made in vain to seduce him from his integrity and induce him to compromise his own honor or to betray his associates. All honor to the man who can't be bought.

Capt. Shotwell gave us a very touching account of the condition of Mr. Samuel Brown, of York, S. C., an innocent old man, who was sentenced by Jeffreys Bond and his packed jury. Grant's beastly marshals, spies and sneaks have gotten rich through these Ku Klux prosecutions, but it is ill-gotten wealth and will only torment the knavish possessors.

[From the Cleaveland Banner.

The friends of Capt. S. will fully appreciate the action of the President in this matter, and we hope and believe it will go far, to restore an era of good feeling, quiet, peace and harmony in the country.

[From the Newton Vindicator,

We are rejoiced to learn from the RALEIGH NEWS, that Captain R. A. Shotwell, has been unconditionally released from the Albany Penitentiary, and was in Raleigh on Friday last. A victim of Radical persecution, he has a far nobler record than the cringing loyalists who hunted him down until they succeeded in getting him out of their way.

THE Wilmington *Post* has put itself to the trouble of compiling a list of "carpet-baggers" in the several States from North Carolina. The Editor of the *Post* has been residing in this State several years, but does not seem to have a clear comprehension of the term "carpet-bagger" as now applied in the South. It has exclusive reference to the men from the North who, following in the wake of the Federal army immediately after the war, came South not with the view of becoming *bona fide* citizens, but to enrich themselves with the spoils of office and the plunder of an impoverished and vanquished people. The term is not applicable to any individual from the North who came South with a view of permanent residence and citizenship. The carpet-baggers are those who belong to the migratory tribe of office seekers, like DEWEESE, LAFLIN, *et omne genus*, who came among us to fatten on the misfortunes and sufferings of our people.

We [illegible] carpet-baggers, but if he can not draw the distinction, it is his misfortune—not our fault.

We do not say that all Republicans who have come South from the North since the close of the war are carpet-baggers. The latter are impecunious hungry office-seekers, who, without character or respectability at home, have been thrust forward by the votes of the negroes in positions of trust and responsibility.

IN shouting the battle cry of "Virginia for Virginians until the mountain hollows shall resound with the echo," as the Richmond *Wihg* does in its issue of the 11th inst., plain notice is served upon every Northern man that he is not wanted within her borders; that Virginia does not want either his capital, brains, or enterprise. The next thing to do is to build a Chinese wall around the "mother of Presidents and Statesmen."—*Washington Republican.*

The absurdity of this charge is shown by the fact that the Virginia Conservatives voted for and elected GILBERT C. WALKER their Governor at the last election—a Northern man, who settled in Norfolk at the close of the war. Gov. Walker came to Virginia a Republican—but his self-respect will not permit him to act with the Wells-Chandler-Hughes party.

THERE seems to be a war brewing among the temperance men in North Carolina. The *Friend of Temperance* says that the colored Good Templars of North Carolina sent up a complaint to the Right Worthy Grand Lodge, which recently met in London, that the Grand Lodge of Good Templars of whites in this State refused to give the colored Lodges the Pass-word. The complaint of the colored Good Templars was favorably considered, and the Grand Chief of North Carolina, representing the whites, was ordered by the Supreme body to give the Pass-word to the colored Lodges.

WE believe from the tone of the President's organ, that he is not averse to the third term discussion, and that if the nomination is again offered him he will not decline.

The Washington *Republican* notes editorially and without censure the advocacy of Grant's claims for the third term by the Columbia *Union Herald*, and merely adds:

"The *Union-Herald* divides with the Greensboro (N. C.) *New North State* the honor of first declaring for President Grant for the third term."

Davenport has been enjoying a fiercely contested law suit about the ownership of a flat-iron. Fifty witnesses were examined.

THE Hillsboro *Recorder*, in an able and well-written editorial, advises the Granges to avoid political complications.

The tone of the *Recorder's* article is in concurrence with our views on the subject—so often expressed through these columns.

IT is rumored that DAN RICE, the great circus man, has Gubernatorial aspirations and is now canvassing Pennsylvania. Daniel cannot get promotion in that State, if he leaves the *Ring*.

Shreveport, which is so severely afflicted with yellow fever, is situated on the west bank of Red river, in the northern part of Louisiana, about three hundred miles by land northwest of Baton Rouge. It is a thriving town, and previously to its present isolation had daily communication by water and railway with New Orleans and all parts of the country. A large business has been carried on at Shreveport, as it is advantageously situated for the shipment of cattle from Texas and of cotton from Louisiana. The population is about 4,607, of which 2,439 are white and 2,168 colored.

The campaign in Virginia like that in Ohio excites intense interest in political circles at the North, and the progress of both is closely watched. It appears to be a fact that the Republicans in Virginia have invited to their aid some of the leading Northern and Western canvassers of their party. A Washington special to the *World* says that Senator Morton is expected next week, and will make several speeches in central portions of the State. The same special says the Conservatives were never more thoroughly organised and they confidently predict an easy triumph.

The State burying-grounds at Austin, Texas, is in a sad state of neglect. The inclosure is broken down, and and the stock go in and out at will, beating down the graves and breaking the tombstones. The tomb of Gen. A. Sidney Johnson is broken to pieces.

THE DAILY NEWS.

NORTH CAROLINA.

More coal has been found in Anson county.

Wilmington is luxuriating on chinquepins.

The Rutherford county jail is receiving receuits daily.

Rutherfordton is without a bar room. Dry Rutherfordton.

A Tournament is to come off at Rutherfordton during Court week.

Gen. D. H. Hill addressed the Grangers of Morrisville, Cabarrus county, on Tuesday.

J. P. Babington is announced in the last issue of the *Cleaveland Banner*, (Shelby,) as local editor. We welcome him.

A. M. Fowler, says the *West-Carolina Record*, was killed a short time ago in Henderson county by the falling of a bucket in a well in which he was working.

On Friday last, in Craven county, a boy by the name of Holton was bitten by a white oak snake. Prompt and vigorous remedies soon placed the lad out of danger.

Gen. Wade Hampton delivers the annual address at the approaching Fair of the Carolinas, and perhaps one will be delivered by Col. D. W. Aiken.

Mr. A. L. Walsh, of Charlotte, has instituted suit against the Charlotte, Columbia and Augusta Railroad for injuries sustained by him some years ago on that road.

Three years ago the debt of Orange county amounted to $35,000. Two-thirds of the debt has been paid off and during the the present year the whole will be paid together with the accrued interest.

Seventeen successive telegraph poles beyond Eureka Station, on the Carolina Central Railroad were struck by lightning during a recent thunder storm in that section. So says the Wilmington *Star* of the 16th inst.

On Saturday night last, near Wilmington, three colored men made an attempt to perpetrate highway robbery on a Mr. Abe Willlamson. They would have succeeded but for the timely appearance of a Mr. Summerell on the scene of action.

We learn, says the Wilmington *Journal*, that an arrangement has been effected by which Rev. W. S. Plumer, D. D., will regularly fill the pulpit of the First Presbyterian Church, Wilmington, every Sunday morning and evening and at the same time continue his duties as President of the Theological Seminary at Columbia, S. C.

There is great complaint in regard to the inspection of timber at Wilmington. A meeting was held Elizabethtown, Bladen county, on the 8th inst., in regard to the matter. Resolutions were adopted asking the citizens of Sampson, Cumberland, Harnett, Richmond, Robeson, Columbus, Brunswick and Moore to hold primary meetings and appoint delegates to a meeting to be held in Fayetteville, November the 19th to devise remedies for the evils complained of.

The Crimean cemeteries in which the English soldiers were buried are said to be in a very discreditable condition, the graves being in a disgraceful and neglected state. There is hardly one cemetery which has not its headstones overturned, its monuments defaced, and its walls thrown down. What is remarkable is, that though this dilapidation is well known in England, not one of the relations of the brave deceased has asked the Government to do anything, and nobody has proposed that anything should be done by private care.

The Worcester correspondent of the *Chicago Tribune* writes that Gen. Butler made this confession to a delegate on the day preceding the Convention: "I ought not to have run this year. It was bad judgment, but the zeal of mine enemy hath eaten me up." After the Convention, he said: "Grant dare not fight me, any way. My seat is secure in Congress, and I can go back there, and make a motion to cancel the back pay measure, and carry it. I never heeded the back pay, if the President did."

Whenever a circus exhibits in town or village, it inoculates the lads with a passion for throwing summersaults and for standing on their heads or hands. Master Pratt, age eleven, of Lanesboro, Mass., died the other day from the effects of too much of this ametuer indulgence. He spent a whole forenoon in summersaulting, in consequence of which his bowels became so twisted and tied into hard knots that in ten days the derangement proved fatal.

A young lady just from Europe remarked to a veteran politican the other day: "It is of very little consequence," she said, "what kind of men you send out as foreign ministers. The thing of real importance is they should have the right kind of wives. Any man can sign a treaty, I suppose, is you tell him what kind of a treaty it must be. But all his social relations with the nations to which you send him will depend on his wife."

The London churches of all denominations have a good custom of setting apart one Sunday during the year, upon which sermons are delivered and special collections made in behalf of the public hospitals. This is known as "Hospital Sunday," and very large sums are raised in this manner, the result of the collections on last "Hospital Sunday" amounting to $127,555 in gold.

A seven-hoofed colt is exciting wonderment in Mifflin, Ohio. It has two hoofs on the right front leg, and three hoofs on the left; the hind legs and hoofs are natural; and the colt is five months old, and of large size and well developed.

The Euriqui Palacois filibustering expedition, which left Aspinwall in the American steamer "Gen. Sherman," to operate against Guatemala and Honduras, has been completely defeated in both republics.

A ruffian shot a waiter in a barroom on Madison street, Chicago, on Saturday night because he asked him to pay for beer he had drunk. The waiter will die. The ruffian escaped, although pursued.

The German Government, it is stated, following the example of other foreign powers, will next year erect in Washington an elegant building for the occupancy of its diplomatic representatives.

How They do in Philadelphia.—The Philadelphia Horticultural Society will open their annual exhibition next Tuesday and continue till Friday. The stage will be decorated with a rustic bridge, fountain and beds of flowers, permitting the audience to promenade across the stage at an elevation of twenty feet, thus giving a new and delightful view of the spectacle presented by the main hall, when decorated with flowers and filled with crowds of visitors. The sale of boquets, plants, flowers, fruit and refreshments will be continued in the lower hall. The music will be of a superior character, and the band will be changed each evening.

R. Hirsch Kalischer, of Thorn, Prussia, is at work to fulfill the ancient prophecy of the restoration of the Hebrews by promoting emigration to Palestine on a large scale. This gentleman recently sent 1,200 thalers to R. Yakia Giron, formerly of Constantinople, and who is now a resident of Jerusalem, to purchase land for the purposes of the Emigration Society. The latter has secured for that Society, at a purchasing price of 4,000 thalers, a track of land which he says occupies an area of 2,000,000 cubits.

Earthquakes in the south of France have been so severe that the attention of the government has been directed to them. It seems there is an artificial mode of preventing them. In Taurus, Caucasus and Portugal these catastrophes are averted by sinking deep wells, a sort of artificial craters, which relieve the earth's centre of the pent-up vapors. It is said that the destruction of Lisbon in 1755 would never have taken place if the well dug after the terrible earthquake of 1597 had not been filled.

A starnge fatality has attended the family of David Sublett, of Indiana. In 1857 a daughter was murdered by her husband, for which the son-in-law was hung. Two years ago a son, George, was killed by the cars while lying drunk on the track. Shortly afterward a son-in-law was killed in the same way. A year ago another son-in-law was shot and killed; and now, last of all, a few days ago a son was found murdered a short distance from the family residence.

"In 1865, W. H. Seward delivered a speech at Annapolis, prophetic of that which is now being accomplished by the Farmers' Granges of the West. He predicted that the next conflict of sections would be between the West and the capitalists of the East, and appealed to the Atlantic States to unite to counterbalance the power of the West."

DOUBLE ACTING FORCE PUMPS, KITCHEN BROS.,

(Successors to GARRETT, PUMP COMPANY,
LOCATED IN BALTIMORE,)

Are prepared to furnish at short notice, the Kitchen Pumps of various sizes, with Porcelain Cylinders, which don't injure hot water. This is a submerged deep well pump, now in use 2½ years without the expense of new packing. We make all sizes, capacity 30 to 150 gallons water per minute, working in every conceivable way and by the use of hose which can be attached in half a minute, these pumps at once become a hand engine of great power, supplying water on the roof of three story buildings, with one hand, and they will stand four to six men easily. We have not heard of one of them being overcome by fire, and yet they have been tested by over fifty fires, saving over $500,000 worth of property. For ordinary use children work them easily if set up by our printed directions, and if so set we warrant them 12 months. Our Double Suction and Force Globe Pumps, also invented by J. L. Kitchen is capable of being used as a drive well pump and is well adapted to all classes of any size; one man can throw water on the roof of 3 story buildings. But is nearly double ended lever and with four men is a very superior hand engine. The No. 7 Globe Pump is 12 inches in Diameter with 1¼ suction and 1¼ discharge pipe and throws 40 to 100 gallons per minute according to speed. The No. 5 Globe, 7 inches in diameter, 1 inch suction and 1¼ discharge pipe, capable of 25 to 30 gallons per minute. These Globe Pumps are made of cast iron for common use, brass for salt water and block tin for the inside of houses for drinking water, they lift the water 25 feet perpendicular, and pump water into the house and draw water from springs or wells at great distances.

All kinds of steam and water pipes fitted at short notice; lead, hose-pipe and couplings furnished here, &c.

Send for price list. The entire depth of wells with good references must accompany all orders.

Some few of these pumps have not given satisfaction but in each case it has been attributable to the maker and not the principle of the pump. We are now employing the best mechanics only, and are determined to have none other.

MR. J. L. KITCHEN—The pump you put in my well which is thirty-two feet deep, I have been using nearly two years; it has proven entirely satisfactory, and by attaching a hose which I got of you it becomes a local fire engine of no mean service. Dear Sir—I have had one of your Force Pumps in use for two years, and it has proved in every case, all we expected of it and I would not be without it, for twice the cost of it.
Yours respectfully,

GREENVILLE, April 19, 1872.
MR. J. L. KITCHEN—
Sir—I have been using one of your pumps driven from my steam engine, for supplying my tanks. I have used it continually for two years, and can confidently recommend it for any purpose where water is required. The pump is so constructed that it will last without getting out of order for years, and I have heard no complaint from any of the many pumps sold in this locality for yard well pumps.
WM. S. BROADDUS.

John C. Gorman and W. C. Stronach, of Raleigh, give certificates stating that they have had the pump in use one and two years, are perfectly satisfied with it, and it has not cost them one cent for repairs.

Messrs Wilson and Waddell, at Wilson's Mills, on the North Carolina Railroad, write that the No. 2 Globe Pump, with 150 feet of 1¼ inch hose, purchased from the Messrs. Kitchen to protect their mills and sash and blind factory against fire, is the best pump they have ever seen. They will buy another as soon as it can be made, for another well. Several parties have examined their pump and will buy others like them. aug 5-D&W1t

THE LAY OF THE GRANGE.

The moon is shining on the grange,
The winds are hushed, the leaves are still,
The patient stars look softly down
Upon my cot at Shannon Hill.
Then come, my horny-handed love,
And wander through the dell with me,
And gaze upon the Durham bull
And listen to his pedigree.

Once I was in the railroad ring,
But now my hands are hard with toil;
I've scattered hay-seed in my hair
And blackened my boots with harness oil.
My city cows have all gone dry,
I am no longer in my prime;
My day is drawing to its close
And it will soon be milking time.

I think I know a new milch cow
That's just exactly what I need;
She's thin from running out to grass,
But only wants a change of feed.
I'll mix a mash of free-trade bran,
Swindles, taxes and back pay,
And coax her to the ballot-box
And feed her till election day.

With one to grasp her by the horn!
And one to hold her by the tail!
Oh, let me safely sit between,
And calmly fill my milking-pail!
And when November's breezes show
'Tis time my Berkshire hogs to kill,
I'll move back into town again,
And sigh no more for Shannon Hill.

An eastern genius, fit for treason, strategem and spoil, has patented what he is pleased to call a musical locomotive whistle, which imitated the sounds of sixteen different instruments, such as the bugle, fife, piano, melodeon, &c., and gives vent to them all at once, if desired.

The Fourth Grand Gift Concert authorized by special act of the Legislature for the benefit of the Public Library of Kentucky, will take place in Public Library Hall, at Louisville, Ky.

Wednesday, December 3, 1873.

Only sixty thousand tickets will be sold and one-half of these are intended for the European market, thus leaving only 30,000 for sale in the United States, where 100,000 were disposed of for the Third Concert. The tickets are divided into ten coupons or parts and have on their back the Scheme with a full explanation of the mode of drawing.

At this concert, which will be the grandest musical display ever witnessed in this country, the unprecedented sum of

$1,500,000,

divided into 12,000 cash gifts, will be distributed by lot among the ticket-holders. The numbers of the tickets to be drawn from one wheel by blind childdren and the gifts from another.

The distribution will be positive, whether all the tickets are sold or not, and the 12,000 gifts all paid in proportion to the tickets sold—all unsold tickets being destroyed, as at the First and Second Concerts, and not represented in the drawing.

PRICE OF TICKETS:

Whole tickets $50; Halves $25; Tenths, or each coupon, $5; Eleven Whole Tickets for $500; 22½ Tickets for $1,000; 113 Whole Tickets for $5,000; 227 Whole Tickets for $10,000. No discount on less than $500 worth of Tickets at a time.

The Fourth Gift Concert will be conducted in all its details like the Third, and full particulars may be learned from circulars, which will be sent free from this office to all who apply for them.

Tickets now ready for sale, and all orders accompanied by the money promptly filled. Liberal terms given to those who buy to sell again.
